SUBJECT INDEX—VOLUME VII

ALCOHOLISM, medical psychologic approach, 114; relation to chronic pancreatitis, 436; relation to cirrhosis of liver, 275
Allergy, antihistamine therapy in dermatology, 368; as cause of angioneurotic edema, 311; sensitivity tests for penicillin and sulfonamides, 383; sensitivity to desiccated thyroid, 468; sensitivity to penicillin, 77; sensitivity to penicillin, 468
Amenorrhea following pregnancy, 468
Ammonium ion effect on dental caries, 224
Anesthesia, dangers of hyperventilation during, 92
Aneurysm, cerebral, diagnosis and treatment, 416
Angioneurotic edema, 311
Antibiotics, excretion in breast milk, 312
Anticoagulants in treatment of thromboembolic disease, 161
Antihistamine therapy in dermatology, 368
Anus, cancer, epithelioma, 402; cancer in fistula-in-ano, 135; surgical emergencies of anorectum, 251
Appendicitis, acute, with perforation, 63
Asthma, treatment of status asthmaticus, 40
Audiometry in testing and selection of hearing aids, 11
Aureomycin, treatment of infectious mononucleosis, 201

BACITRACIN, treatment of hordeolum, 133
Backache, low back pain due to faulty foot posture, 441; physical therapy of low back pain, 56
Banana diet in celiac disease, 239
Bile ducts, disease as cause of jaundice, 124; surgery, 18; surgery, causes of unsatisfactory results, 351
Bladder, exstrophy, surgical treatment, 129
Blood, dyscrasias: erythroblastosis fetalis treated by exchange transfusion, 1; dyscrasias, familial hemolytic jaundice, 357; loss, *see* Hemorrhage
Blood transfusion, exchange, in treatment of erythroblastosis fetalis, 1; replacement, technic, 238
Blood vessels, disease, thromboembolic, anticoagulant therapy, 161
Bones, *see also* Fractures: congenital deformities, 323; disease, Paget's, A-50 (Feb.); disease, treatment of osteomyelitis, 220; disease, treatment of postmenopausal and senile osteoporosis, 468
Brain, aneurysm, diagnosis and treatment, 416; inflammation: *see* Encephalitis; prenatal, natal and postnatal damage in causation of cerebral palsy, 206
Breast milk, excretion of sulfonamides and antibiotics, 312
Bronchiectasis, diagnosis and treatment, 202
Burns, chemical, of eye, emergency treatment, 45

CAFERGONE in treatment of hereditary cephalalgia, 33
Calciferol in treatment of lupus vulgaris, 311
Cancer, as cause of poor results following surgery of biliary system, 355; epithelioma of anus, 402; in fistula-in-ano, 135; of bile ducts, 24; of esophagus, 112; of pancreas, 25; of stomach, 112; of stomach, 260; of stomach: linitis plastica, 77; of stomach, technic of cytodiagnosis, 26; of thyroid, 62
Carcinoma, *see* Cancer
Celiac disease, diagnosis and treatment, 239
Cephalalgia, *see* Headache
Cerebral, *see* Brain
Cervix, *see* Uterus
Cheyne-Stokes respiration in absence of disease, 382
Chloromycetin in treatment of pyelitis in pregnancy, 383
Clavicle, fracture, figure-8 splint for, 48
Cleft palate, speech training after surgical closure, 439
Cold, sensitivity in chronic polyneuritis, 160
Contact lenses, advantages and disadvantages, 253
Coronary arteries, thrombosis, diagnosis and treatment of myocardial infarction, 346; thrombosis, treatment, 289; thrombosis, treatment with anticoagulants, 161
Cramps, muscular, in pregnancy, 78
Curare in treatment of tetanus, 382
Cytodiagnosis in gastric carcinoma, 26

DEAFNESS, procedures for testing and selecting hearing aids, 11
Defects, congenital, resulting from non-genetic factors, 323
Depoheparin, anticoagulant, in treatment of thromboembolic disease, 163
Dermatitis, treatment of eczema, 50
Dermatology, antihistamine therapy in, 368
Diabetes mellitus, associated with chronic pancreatitis, 439; symptoms discovered following fracture, 467
Diarrhea, diagnosis and treatment of diarrheal diseases, 295
Dicumarol, in treatment of thromboembolic disease, 161
Diet, banana, in treatment of celiac disease, 239; for diarrheal patients, 300
Digitalis, in cardiac disease without congestive heart failure or auricular fibrillation, 385
Dihydroergotamine methanesulfonate in treatment of hereditary cephalalgia, 33
Dilantin, treatment of gingival hyperplasia due to, 294
Disease, etiology, dynamic (psychosomatic) concepts, 183
Duodenum, diseases of stomach and duodenum, 259; ulcer, *see* Peptic ulcer

EAR, inner, Lempert operation for Ménière's disease, 397
Eczema, treatment, 50
Edema, angioneurotic, 311
Elbow, aspiration of elbow joint in treatment of fracture, 48
Emotions in causation of disease, psychiatric problems in medicine, 425
Encephalitis, seasonal changes in streptococci isolated from patients, 117
Endocarditis, treatment, 366
Endometriosis, of cervix simulating carcinoma, 287
Ergotamine tartrate in treatment of hereditary cephalalgia, 34
Erythroblastosis fetalis, exchange transfusion for, 1; replacement transfusion for, 238
Esophagus, diseases of, 106
Estrogens, in treatment of osteoporosis, 468
Exercise, for legs, 78
Eye, burns, chemical, emergency treatment, 45; disease: treatment of glaucoma, 95; inflammation, treatment of scleritis and episcleritis, 291
Eyeglasses, contact lenses, tinted lenses and telescopic spectacles, 253
Eyelids, disease, treatment of hordeola, 133

FINGER, avulsion of extensor tendon, "baseball finger," 46
Fistula-in-ano and cancer, 135

Fluorine, in prevention of dental caries, 223
Foot, *see also* Toe; faults in posture as cause of pain due to nerve tension, 441
Fractures, followed by symptoms of diabetes mellitus, 467; minor procedures in fracture management, 46; of ribs, 128; physical therapy in rehabilitation, 55

GALLBLADDER, disease as cause of jaundice, 124; inflammation, acute purulent cholecystitis complicating familial hemolytic jaundice, 357; surgery, causes of unsatisfactory results, 351
Gastric, *see* Stomach
Gastrointestinal tract, disease, celiac, diagnosis and treatment, 239; hemorrhage, surgical vs. medical management, 342; upper, diseases of, 106
Geriatrics, management of elderly patients, 186
Gingivae, hyperplasia due to dilantin, 294
Glaucoma, treatment, 95
Goiter, surgical management of large goiters, 58
Gonzales, Thomas A. (men of medicine), 461
Gynergen, *see* Ergotamine tartrate

HAAS, Sidney V. (men of medicine), 147
Hall, Andy, general practitioner of year (men of medicine), 73
Hand, *see also* Finger; Nail; numbness and tingling during pregnancy, 311; surgery, modern principles, 364
Headache, as symptom of cerebral aneurysm, 416; hereditary: treatment, 33; migraine, psychosomatic aspects, 362
Hearing aids, procedures for testing and selection, 11
Heart, arrhythmia, tachycardia following controlled hyperthyroidism, 312; arrhythmias, treatment, 218; disease as indication for induction of labor, 176; disease associated with hyperventilation, 93; disease, coronary, *see* Coronary arteries; disease, digitalis in, 385; disease, rheumatic, treatment with anticoagulants, 163; disease, treatment of endocarditis, 366; disease, vitamin E treatment questionable, A-50 (Mar.); muscle, diagnosis and treatment of myocardial infarction, 346
Hematuria in children, 312
Hemorrhage, massive, from gastrointestinal tract, 342
Hemorrhoids, as cause of surgical emergencies, 251
Heparin, in treatment of thromboembolic disease, 161
Hepatitis, infectious, diagnosis and treatment, 410
Hermaphrodism and sexual deviation, 38
Hernia, inguinal, surgical treatment, 313
Hip, dislocation, congenital, 328
Histamine, *see* Antihistamine
Hodgkin's disease, diagnosis, A-50 (Mar.); diagnosis and treatment, 191
Hordeolum, treatment, 133
Hydrotherapy, at health resorts, 210
Hyperhidrosis, treatment, 383
Hyperventilation in functional and organic disease, 85

INFANTILE PARALYSIS, *see* Poliomyelitis
Infants, congenital defects resulting from non-genetic factors, 323; newborn, erythroblastosis treated by exchange transfusion, 1
Intestines, disease, diagnosis and treatment of diarrhea, 295; obstruction, acute, advances in diagnosis and treatment, 166

JAUNDICE, differential diagnosis of surgical and nonsurgical types, 124; familial hemolytic, complicated by acute purulent cholecystitis, 357
Jenner, Edward, exhibit in honor of, 74

KENNY treatment of poliomyelitis, 100
Kidneys, damage as contraindication to pregnancy, 238; disease and pregnancy, 238; disease as cause of hematuria in children, 312; disease, pyelitis of pregnancy, 383; inflammation, differential diagnosis of chronic pyelo- and glomerulonephritis, 216

LABOR, conduct of, technic of induction, 173
Labyrinth, hydrops, surgical decompression in treatment of Ménière's disease, 397
Lactation, excretion of sulfonamides and antibiotics in breast milk, 312
Larynx, bilateral paralysis, 430
Legs, exercises for, 77
Lenses, contact, tinted and telescopic lenses, advantages and disadvantages, 253
Linitis plastica, 77
Lister, Joseph, 350
Liver, cirrhosis, a plan for the alcoholic, 274; function tests in diagnosis of jaundice, 124; inflammation, diagnosis and treatment of infectious hepatitis, 410
Lungs, suppuration, diagnosis and treatment, 202; surgery, in treatment of bronchiectasis, 205
Lupus vulgaris, calciferol dosage in, 311

MASTURBATION, in male, 37
Ménière's disease, Lempert operation for, 397
Menstruation, cessation, amenorrhea following pregnancy, 468; premenstrual tension, A-50 (Feb.)
Mesantoin in treatment of hereditary cephalalgia, 33
Migraine, psychosomatic aspects, 362; treatment of hereditary cephalalgia, 33
Military medicine, status of captured physicians in war time, 356
Mononucleosis, infectious, treatment with aureomycin, 201
Multiple sclerosis, termination of pregnancy in, 160; treatment, 382
Muscles, cramps of, in pregnancy, 78
Myocardial, *see* Heart muscle

NAIL, infection, treatment of paronychia, 52
Nephritis, *see* Kidneys
Nerve tension and inflammation due to faulty foot posture, 441
Nervous system, cold sensitivity in chronic polyneuritis, 160; multiple sclerosis, 382; multiple sclerosis, pregnancy in, 160
Neurocirculatory asthenia and hyperventilation, 92
Neuroses, management in general hospital, 268
Nitrogen mustard, treatment of Hodgkin's disease, 201

OBSTETRICS and gynecology, residency requirements in, 35
Old age, *see* Geriatrics
Osteitis deformans (Paget's disease), A-50 (Feb.)
Osteomyelitis, treatment, 220
Osteoporosis, estrogen treatment, 468

PAGET'S disease, pain relief in, A-50 (Feb.)
Palate, cleft, speech training after surgical closure, 439
Palsy, cerebral, etiology, 206
Pancreas, cancer, and surgery of bile ducts, 25; disease as cause of jaundice, 124; inflammation, treatment of chronic pancreatitis, 436
Paraplegia, treatment of paraplegic patient, 292
Paritol, anticoagulant, in treatment of thromboembolic disease, 163
Paronychia, treatment, 52
Penicillin, and incidence of thrombosis, 165; sensitivity, 77; sensitivity, 383; sensitivity, 468; treatment of appendicitis, 63; treatment of congenital syphilis, A-50 (Feb.); treatment of late latent syphilis, 312; treatment of osteomyelitis, 221; treatment of status asthmaticus, 43; treatment of subacute bacterial endocarditis, 366; with procaine for local injection, 161
Peptic ulcer, diagnosis, 110; perforated, immediate gastrectomy in, 391; perforated, primary gastrectomy for, 330; treatment, 259
Perineum, repair of third-degree perineal tear, 339
Perspiration, excessive, 383
Perversion, sexual, in male, 36

Physical medicine, hydrotherapy at health resorts, 210; in general practice, 54; Kenny treatment of poliomyelitis, 100
Physicians in war time, status of captured doctors, 256
Poliomyelitis, diagnosis and treatment, 100; seasonal changes in streptococci isolated from patients, 117
Polyneuritis, chronic, cold sensitivity in, 160
Pregnancy, complications: infectious disease as cause of congenital defects, 323; complications: multiple sclerosis, 160; complications: muscle cramps, 78; complications: nausea and vomiting, 383; complications: nephritis, 238; complications: numbness and tingling of hands, 311; complications: pyelitis, 383; complications: toxemia, 238; complications: vaginal thrush, 77; sequelae, amenorrhea, 468
Psoriasis, management, 433
Psychosomatic medicine, alcoholism as medico-psychologic problem, 114; dynamic etiologic concepts, 181; hyperventilation and psychoneurosis, 85; management of migraine, 362; management of neuroses in general hospital, 269; psychiatric problems in medicine, 425
Pyelitis in pregnancy, 383

RECTUM, surgery, emergencies of anorectum, 251; surgery, repair of third degree perineal tear, 339
Rehabilitation, and spa therapy, 210; treatment of paraplegic patient, 292
Residency training requirements in obstetrics and gynecology, 35
Respiration, abnormalities, hyperventilation, 85; Cheyne-Stokes, in absence of disease, 382
Respiratory tract, infection, seasonal changes in streptococci isolated from patients, 117
Rheumatic fever, differential diagnosis, 160; normal activity after recovery, 77
Rh factor, erythroblastosis fetalis treated by exchange transfusion, 1; in cerebral palsy, 207; replacement transfusion for hemolytic disease of newborn, 238
Ribs, fracture, 128
Roentgen rays, treatment of Hodgkin's disease, 200
Rubella, as cause of congenital defects, 325

SHOES, reinforced, for correction of faulty foot posture, 447
Sciatica, due to faulty foot posture, 441
Scleritis and episcleritis, 291
Sexual relationships, male, deviations from normal, 36
Shoulder, physical therapy of frozen shoulder and bursitis, 57
Skin, disease, antihistamine therapy in, 368; disease, psoriasis, 433; disease, treatment of eczema, 50
Spa therapy, 210
Speech training program for cleft palate children, 439
Spies, Tom D., and Robert Williams receive Cuban award, 190
Spine, physical therapy of arthropathy of cervical spine, 56
Spleen, excision in familial hemolytic jaundice, 357
Splints, *see also* Fractures; for hand, 364
Status asthmaticus: treatment, 40
Steatorrhea, in celiac disease, 239
Stomach, cancer, 260; cancer, cytologic diagnosis, 26; cancer, diagnosis, 112; cancer, linitis plastica, 77; diseases of stomach and duodenum, 259; inflammation, 108; surgery, immediate gastrectomy for acute perforation, 361; surgery, primary gastrectomy for perforated peptic ulcer, 330; ulcer, *see* Peptic ulcer
Streptococci, seasonal changes in cultures isolated from patients with poliomyelitis, encephalitis and respiratory infection, 117
Sty, *see* Hordeolum
Sulfadiazine, treatment of pyelonephritis, 216
Sulfonamide compounds, excretion in breast milk, 312; sensitivity, 383; treatment of osteomyelitis, 221
Surgery, changing concepts in, 154
Syphilis, congenital, treatment, A-50 (Feb.); follow-up treatment of late latent form, 312

TACHYCARDIA, *see* Heart arrhythmia
Teeth, caries, present concepts of treatment, 222
Tetanus, treatment with curare, 382
Thromboembolic disease, anticoagulant therapy, 161
Thyroid, cancer, 62; desiccated, sensitivity to, 468; enlargement: surgical management of large goiters, 58; surgery, bilateral laryngeal paralysis as sequel of thyroidectomy, 430; treatment of hypothyroidism, 280
Toe, fracture of distal phalanx of great toe, 46
Tromexan, anticoagulant, in treatment of thromboembolic disease, 163
Tuberculosis, of lung, with bronchiectasis, treatment, 467; of skin, calciferol treatment of lupus vulgaris, 311

URINE, blood in, in children, 312
Uterus, endometriosis of cervix simulating carcinoma, 287

VAGINA, moniliasis (thrush) in pregnancy, 77
Vertigo, aural, surgical treatment of Ménière's disease, 397
Vitamins, D_2 (calciferol) in treatment of lupus vulgaris, 311; E of questionable value in heart disease, A-50 (Mar.)
Vomiting in pregnancy, 383

WILLIAMS, Robert, and Tom D. Spies receive Cuban award, 190
Wrist, sprain with fracture of carpal scaphoid, 48
